Sir:

Prior to examination of the above-identified application on the merits,

Applicant respectfully submits the following for entry and consideration.

IN THE SPECIFICATION:

Page 4, line 11 through page 5, line 2, delete the paragraph in its entirety.

Please enter the following replacement paragraph for the paragraph spanning
pages 5 and 6:

--FIG. 1 illustrates an example migration arrangement 100 (including an example compactor) in simplistic form, such FIG. being useful in explanation and understanding both background and example embodiments of the present invention.

More specifically, shown is a source layout 110 fed to a compactor 120. The source layout 110 can be of any type of suitable code, for example, a non-exhaustive listing including Verilog or VHDL code. The compactor 120 further takes into consideration target process design rules 130 as well as user-specified constraints 140, and
